

## **Revenue Generator for Animal Groups**

Animal and Human Nutrition 101, independent Calif distributor for Dynamite Specialty Products, is offering not only a way to generate passive income for your non-profit, but also help the animals that you care for by visitors/supporters purchasing products from Dynamite Marketing.

Dynamite Marketing manufactures nutritional supplements for all living species; horses, humans, dogs, cats, exotics, livestock, birds and plants. They have a 100% money back guarantee. If you do not see a change in yourself, animals or plants after using a product for 120 days, Dynamite will refund your money.

### **How It Works**

1. A member of your organization becomes a distributor for Dynamite Specialty Products. Through the distributor's replicated Dynamite site, product is purchased by a visitor/supporter of your organization for either themselves or the non-profit.
2. Information for visitors and supporters is placed on your website with a link to the distributor's replicated website for purchase of product(s)
3. Product is purchased at retail. At the end of each month, a check from Animal and Human Nutrition 101 is dispersed to the non-profit based on the distributor's sales for that month.
4. All products are dropped shipped directly to your non-profit or a specified address given by the purchaser of product(s).
5. Education is provided by Animal and Human Nutrition 101 and its upline on products and their use along with additional support information.
6. Brochures and catalogs are provided to the distributor for distribution to visitors of your non-profit.
7. Start up programs for all species are provided
8. Consultation is provided for specific dietary issues.
